

Arizona Report of Public Agency Performance on Parent Involvement

Indicator 8: Parent Involvement

Percent of parents with a child receiving special education services who report that the school facilitated parent involvement as a means of improving services and results for children with disabilities.

Measurement

The source of the data for this indicator is a 25-question Web-based Parent Survey. Parent responses to the survey are analyzed, divided by the total number of parents of children with disabilities, and multiplied by 100 to give the PEA result as a percentage.

Explanation of Indicator

A public education agency that is in its assigned year of the ADE-ESS monitoring cycle and districts with enrollment greater than 50,000 students provide surveys to all the parents of students with disabilities. Analysis with a measurement software program of parent responses gives the number of parents who report the school facilitated parent involvement as a means of improving services and results for children with disabilities.

For public reporting purposes, an asterisk (*) is reported for a district when the district had fewer than 10 students with disabilities enrolled that school year. In these instances, the data are not reported to ensure confidentiality.

State Target for SY 2007–2008: 46%

PEA	PEA Results by Percentage	State Target Met?
Agua Fria Union High School District	98	Yes
Aguila Elementary District	100	Yes
